Kavindu Deshal Silva

Software Engineer, mobile, backend and applied AI

Hildesheim, Germany | kavindudeshal2@gmail.com | linkedin.com/in/deshal001 | github.com/Deshal-001

Profile

Software engineer building mobile apps and the systems behind them. Flutter apps taken from first plan to the app stores, REST APIs in Spring Boot and Node.js, and image classifiers that explain their decisions. Currently completing an MSc in Software Engineering in Hildesheim alongside a Werkstudent role.

Experience

Werkstudent Present
Comitec IT Systems, Germany
- Part-time engineering alongside the MSc.

Software Engineer Jul 2024 – Apr 2025
Irusri Group AB
- Led mobile app projects from planning to launch, working closely with the rest of the team to deliver on time.
- Supported junior developers and coordinated releases on the major app stores.

Co-founder, Social Media Jan 2025 – present
Siggi's Ceylon, Sri Lanka travel
- Co-founded a Sri Lanka travel company; run its social media and coordinate with tour partners.

Freelance Software Developer Aug 2023 – Dec 2023
Enash Active (Pvt) Ltd
- Delivered a Flutter badminton court booking app solo: venue search by city, one-off and recurring bookings, payment and account verification.

Software Engineering Trainee Jun 2022 – Jun 2024
IFS, Colombo
- Gave global technical support for IFS asset management software and worked with product teams to resolve customer issues.

Education

MSc Software Engineering Apr 2025 – present
University of Hildesheim, Germany

BEng (Hons) Software Engineering, First Class Honours Jan 2021 – Jul 2024
Informatics Institute of Technology, affiliated with the University of Westminster, London

Selected projects

- **UniConnect** University event booking platform: Flutter app (BLoC, QR check-in), Angular admin dashboard, Spring Boot API with JWT on PostgreSQL, Docker and GitHub Actions.
- **GemLens** Gemstone identification from photos: classifier trained on ~24,000 images, ONNX, LIME explanations, Flask API and a cross-platform Flutter app.
- **EVion** EV trip planning backend: Node.js, Express and PostgreSQL, OpenRouteService routing, battery range model, eco-score, Swagger docs, Jest tests.
- **Fleet Management** Spring Cloud microservices with Eureka service discovery, an API gateway and documented architecture decisions (in progress).
- **Snake Eyes** Team project: Flutter app that identifies Sri Lankan snake species from a photo, with a first-aid guide.

Skills

Mobile	Flutter, Dart, BLoC, Clean Architecture, Firebase, SwiftUI, Kotlin
Backend	Java, Spring Boot, Spring Cloud, Node.js, Express, .NET, REST, JWT, PostgreSQL
Web	Angular, React, TypeScript, HTML, CSS
AI / ML	Python, TensorFlow, Keras, ONNX, LIME, scikit-learn
Tools	Git, GitHub Actions, Docker, Swagger, Jest, Postman
Languages	English (fluent), Sinhala (native), German (working towards B1)

Beyond work

Cricket: named best ODI bowler of 2026 in Niedersachsen. **Football** with university and local teams. **Water skiing.** **Photography:** landscapes and streets as Peaceful Lens.
