Kavindu Deshal Hembadura

Software Engineer | Flutter Developer | Full-Stack & Applied AI

Hannover, Germany | kavindudeshal2@gmail.com | **deshal.me** | linkedin.com/in/deshal001 | github.com/Deshal-001 | Medium

Profile

Software engineer in Hannover with 3+ years building mobile and full-stack products: Flutter apps taken from first plan to the App Store and Google Play, backends in Spring Boot, Node.js and NestJS on PostgreSQL, CI/CD that removes manual deployment, and explainable AI models that show why they decide. Fullstack-Entwickler at Comitec IT Systems alongside an MSc. Open to full-time Software Engineer and Flutter Developer roles in Germany.

Experience

Fullstack-Entwickler (Working Student) Nov 2025 – present
Comitec IT Systems GmbH, Lehrte
- Full stack development with Flutter, Node.js and Express; database management and close collaboration across the team.
- CI/CD practices that streamline deployment and raise team productivity.

Software Engineer Jul 2024 – Oct 2025
Freelance, remote
- Modern Flutter apps and Java/Spring Boot backends, with end-to-end ownership of features.
- REST APIs, payment gateways, Google Maps and push notifications designed and integrated.
- CI/CD automated with GitHub Actions, cutting manual deployment time by 80%.

Software Engineer Oct 2024 – Apr 2025
Irusri Group, Nugegoda (hybrid)
- Mobile application development in Flutter; projects led from planning to store release.

Software Engineer Intern Jul 2024 – Sep 2024
Irusri Group, Sweden (remote)
- Dart and Flutter mobile application development.

Software Engineer Intern Jul 2022 – Jul 2023
IFS, Colombo (hybrid)
- GSD Asset Management team: technical support for IFS customers worldwide on implementation and usage of IFS Asset Management.
- Completed training in IFS Aurena development, APP10 development and Integration API development.

Education

MSc Software Engineering Apr 2025 – present
University of Hildesheim, Germany

BEng (Hons) Software Engineering, First Class Honours Jan 2021 – Jul 2024
Informatics Institute of Technology, affiliated with the University of Westminster, London

Selected projects

- **Ankomm** Live Germany onboarding guide for international students (ankomm.vercel.app): personalised checklists from Anmeldung to bank account. Next.js, NestJS, Prisma, PostgreSQL, JWT, Swagger, Docker.
- **UniConnect** University event booking platform: Flutter app (BLoC, QR check-in), Angular admin dashboard, Spring Boot API with JWT on PostgreSQL, Docker and GitHub Actions.
- **GemLens** Gemstone identification from photos: classifier trained on ~24,000 images, ONNX, LIME explanations, Flask API and a cross-platform Flutter app.
- **EVion** EV trip planning backend: Node.js, Express and PostgreSQL, OpenRouteService routing, battery range model, eco-score, Swagger docs, Jest tests.
- **Fleet Management** Spring Cloud microservices with Eureka service discovery, an API gateway and documented architecture decisions (in progress).

Skills

Mobile	Flutter, Dart, BLoC, Clean Architecture, Firebase, SwiftUI, Kotlin
Backend	Java, Spring Boot, Spring Cloud, Node.js, Express, NestJS, Prisma, REST, JWT, PostgreSQL
Web	Next.js, React, Angular, TypeScript, HTML, CSS
AI / ML	Python, TensorFlow, Keras, ONNX, LIME, scikit-learn
Tools	Git, GitHub Actions, CI/CD, Docker, Vercel, Swagger, Jest, Postman, IFS ERP, ServiceNow
Languages	English (fluent), Sinhala (native), German (A1, working towards B1)

Beyond work

Cricket: named best ODI bowler of 2026 in Niedersachsen. **Football** with university and local teams. **Water skiing.** **Photography:** landscapes and streets as Peaceful Lens.
